

NAMISHA

Technical Project Manager | Cloud & DevOps

New Delhi, India • +91 8882424764 • namisha.kalra13@gmail.com

PROFESSIONAL SUMMARY

Technical Project Manager with 4+ years of experience leading cloud, DevOps, web and mobile-first projects for clients across India and the Gulf, from requirements to production release. Coordinate 3 delivery teams (engineering, QA and support) with clients, resellers and vendors. Hands-on in AWS, Linux and MySQL, with ZATCA e-invoicing delivered across both compliance phases.

PROFESSIONAL EXPERIENCE

FIRECAAT PRIVATE LIMITED

Hyderabad, India

Project Manager (Cloud & DevOps Projects)

Aug 2022 - Present

- Lead new client engagements as the single point of contact, from requirement gathering and onboarding to MOMs, support questionnaires, delivery and handover.
- Orchestrate the daily work of 3 cross-functional teams (developers, testers and support staff) with clients, resellers and vendors, using Jira for task tracking and Confluence for SOPs and release notes.
- Drive reseller onboarding and support across 2 regions (India and the Gulf), and administer payroll and HR for a team of about 20.

Key projects

Web & Mobile App Coordination Projects (Project Manager)

4 months

- Spearheaded the 4-month, end-to-end delivery of mobile-first applications across 3 teams (development, QA and deployment), aligning tasks and releases to meet client expectations.
- Planned and validated 2-stage deployments (staging, then production), with QA testing before go-live.
- Implemented DNS, SSL and NGINX configuration on Linux for go-live, hosted WordPress sites, and authored deployment documentation and training guides for client handover.

Saleculator POS - Cloud Enablement (Support Engineer)

6 months

- Enabled cloud deployment of a monolithic POS system for global clients over 6 months, including multi-language support and Raspberry Pi-based deployments.
- Safeguarded sales data through multi-counter MySQL backups, recovered data after incidents, and resolved Linux server and performance issues to keep the POS reliable.
- Validated changes with 2 teams (QA and staging) before release.

AWS CloudOps Support for Web Applications (Project Manager)

10 months

- Directed scope and delivery of AWS infrastructure for web applications over 10 months, tracking requests and issues across 3 service areas (IAM, EC2, Load Balancer) as Jira tickets.
- Presented progress in client meetings and cloud architecture planning, and oversaw troubleshooting, patching and updates across full-stack (frontend and backend) environments.
- Configured 2 safeguards for the environments: CloudWatch monitoring and WAF security.

Odoo CRM - Cloud Infrastructure Deployment (Project Manager)

6 months

- Architected the AWS setup for Odoo CRM using 6 AWS services (EC2, Route53, S3, Load Balancer, IAM and Certificate Manager).
- Established 2 separate environments (staging and production), so changes could be tested before reaching live users.
- Automated 2 recurring tasks, server setup and backups, with shell scripts to keep deployments consistent.

ZATCA E-Invoicing Compliance - Gulf Clients (Project Manager)

- Delivered ZATCA e-invoicing compliance across both phases (Phase 1 and Phase 2) for Gulf clients, working with developers on integration, testing and support, and guiding resellers and clients through requirements.

CORE SKILLS

Project & Release Management: Technical project coordination, sprint/ticket tracking (Jira), documentation (Confluence), client and vendor communication, MOMs, SOPs, deployment planning, test coordination, production support

Cloud & DevOps: AWS (EC2, IAM, ALB, Route53, S3, CloudWatch, WAF, CloudFormation), Jenkins, GitHub, Bitbucket, Linux, Bash, NGINX, DigitalOcean
Development & Data: Python, MySQL, DBMS, WordPress
Domain: POS software, ZATCA e-invoicing (Phase 1 & 2), Gulf market clients

EDUCATION

Bachelor of Journalism (B.A.) - Delhi University, College of Art 2023

CERTIFICATIONS

Advanced Certification Programme in Cyber Security | AWS Compute Services
